Web Design

Welcome to

Web Design

Made Right

Skinny Pixel Technologies

Designed, Built, and Engineered for Success

Achieve your website goals with Skinny Pixel Technologies. Choose from our cost effective budget web design services to a fully custom website with advanced features and functionality.

Add eCommerce to your website to create the ultimate customized online store. Extend the reach of your products, without overextending your resources.

With Skinny Pixel Technologies, you can do more with the web than you ever thought possible.

The Process

- Contact us
- A meeting with a Skinny Pixel Representative is setup to discuss your website needs.
- A parcel good faith retainer is paid. (refundable)
- Skinny Pixel researches and prepares an extensive "Skinny Doc" Proposal.
- You can customize your proposal to fit your needs.
- The retainer is paid.
- Depending on the size and scope of your new website work usually last 4 -6 weeks.

Search Engine Placement Services

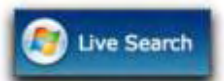

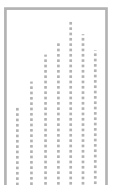

Your potential customers are searching for your products and services every day. Is your website appearing at the top of Google and Yahoo for your specific key words?

Whether it is someone looking for a local real estate agent or a corporate purchasing agent who needs three thousand instrument panels, the internet is where it happens. as an online brochure. Moving your website to the top of the search results within the major search engines will transform it into a powerful source of business development. Many of our clients have told us that our website optimization services generated more sales for their company than all other forms of advertising combined!

Our various [SEO services](#) range from as little as two hundred dollars per month to over ten thousand dollars per month depending on how competitive your target search terms are and the number of search terms you wish to target. Do an "exact" search on Google for "search engine positioning services" (by adding the quotation marks) and you will still find over 50,000 competing results. Many of these competitors offer flea market pricing. Our advice: Don't shop for price, shop for results. Why bother paying one-fourth the price if they fail to deliver any real results? A majority of our competitors can afford to offer extremely low prices because all they are doing is tweaking your meta tags and content. If they offer any external link building services at all, it is typically through risky link exchanges or a handful of low quality directory submissions. This simply doesn't cut it anymore when trying to improve your rankings within Google

Skinny Pixel Technologies is currently partnered with one of the top SEO companies in the world

Monthly Support Options

PIXEL PERFECT SUPPORT

Your website should be an on going dynamic experience to keep you visitors coming back. Making updates, changing content and updating products will make your new website “sticky”.
